

# SHOWCASE

Casa by Bravacasa 2016 - Jakarta, Indonesia

OSRAM Lighting Solutions unprecedentedly collaborated with Atelier Cosmas Gozali and Dots Studio to co-create the fascinating marine life installation with the design concept of “No Boundaries – Dream of Space” at Casa by Bravacasa on 1 – 4 June, 2016, the largest and exclusive art, architecture, design and living exhibition that embraced the beauty of Jakarta’s art. This impressive installation was inspired by the coexistence between man and nature, highlighting the harmony of nature and advanced technology. Traxon Dot XL and e:cue Butler S2 were inextricably integrated into the sophisticated marine installation at the entrance of the exhibition, demonstrating the marine life into a real vision. The stunning installation not only created sensational lighting effects that dazzled and amazed the visitors, but also symbolized how human and natural world should coexist without conflicts.
