

SHOWCASE

Kamppi Shopping Mall

Integrating two underground terminals and a metro rail station, the Kamppi Shopping Mall in the heart of Helsinki is one of the largest shopping complexes in Finland. For a stylish and unique illumination, Traxon installed its revolutionary Mirror 64PXL Wash panels, which provide Kamppi with the function of a regular mirror when switched off and an unexpected source of light when illuminated. The DMX control of the Mirror 64PXL Wash panels allows for the emergence of a huge spectrum of different colorings and video animations, creating a thrilling shopping experience and offering a perfect stage for any promotional or entertainment event.
