

SHOWCASE

Lux Lounge

The Lux Lounge is a popular bar in Wilmington, USA, which is renowned for its outstanding ambience and excellent drinks. To amplify the lounge's atmospherics, Traxon provided DMX controlled Color Beamers which are installed behind the bar's backdrop panels and in the countertops. Additional lighting is provided in the lounge area on two floors by direct and indirect accent lighting. Owing to the DMX technology used, the interconnected lighting elements enable the Lux Lounge to generate a huge spectrum of different colorings and color changing-lighting scenarios, adding a unique lighting touch to the venue.
